

Welcome: Inspire (UK) Care are an accredited care provider that works in partnership with NHS, Statutory, Voluntary and Private Organization to provide and maintain dignity of life when reaching end of life. We have over 12 year's Social Work knowledge, skills, expertise, and qualification.

We offer personal care for service users reaching end of life, including those displaying challenging behavior, suffering from mental health related issues and generic health and social care needs.

Our Services: You can expect a comprehensive quality assured service delivery; because we provide a tailored assessment, which places the Service User at the heart of our holistic and person-centered approach and intervention.

Our vision is that... *"We strive on getting it right first time"* We achieve this by collaborating across all boundaries with health clinicians/ families and other professional organizations to ensure that the resources are directed as and when required for each service user.

Our values and ethics allows us to communicate effectively and efficiently to ensure your dignity, respect is considerer paramount.

We will support services users and their families at home during their end of life and ensure you have a dignified and respectful comfortable environment and surrounding.

Our services ensure our workforce are supported by conducting supervision, coaching and mentoring is available. From time to time, our workers may be late due to unforeseeable circumstances. If you find that this is the case, please do call us immediately and let us know so we can investigate the situation and make other arrangements.

With our independent social workers, we are able to support our services users and their family in other areas of social care.
